

CALL FOR PAPERS

ICEPFTCCF 2023
Apr 26-27, 2023
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPFTCCF 2023 : International Conference on Eco-Physiology of Fruit Tree, Cultivation and Climatic Factors is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Eco-Physiology of Fruit Tree, Cultivation and Climatic Factors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Eco-physiology of fruit tree
Effect of changing climatic factors
on the ecophysiology of fruit
plants
The ecophysiology of fruit plants
Fruit tree cultivation
Leaf functioning
Fruit growth

Fruit quality
Water relations
Abiotic stress
Productive efficiency
Precision orchard management
Innovative agricultural practices
