

CALL FOR PAPERS

ICAMRMT 2023
Apr 29-30, 2023
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMRMT 2023 : International Conference on Advanced Materials Research and Manufacturing Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials Research and Manufacturing Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

3D scanning and printing technologies

Advanced machining technologies

Advanced manufacturing processes

Advanced materials

Biomaterials

Composite materials and repairs

Energy materials and composites

Functional materials

Structural health monitoring

Sensors and actuators

Laser, microwave and thermal processing

Materials characteristics

Mechanical properties of materials

Modeling and simulations

Nanomaterials

Rapidly prototyping

Smart materials and systems

Surface engineering and tribology
