

CALL FOR PAPERS

2023
Apr 15-16, 2023
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

2023 : International Conference on Visual-Spatial Cognition and Modulation of Visual-Spatial Cognition is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Visual-Spatial Cognition and Modulation of Visual-Spatial Cognition. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Visual-spatial cognition
Visual-spatial cognition and
brain function
Typical development of
visual-spatial cognition
Atypical development of
visual-spatial cognition
Typical improvement of
visual-spatial cognition

Atypical improvement of
visual-spatial cognition
Modulation of visual-spatial
cognition
Visual-spatial cognitive and
everyday functioning
Math education and visual-spatial
cognition
STEM and visual-spatial cognition
