

# CALL FOR PAPERS

**ICAFPT 2023**  
**Apr 15-16, 2023**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFPT 2023 : International Conference on Advances in Food Packaging Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Food Packaging Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food packaging technology	Packaging of food in glass containers
Innovative food packaging solutions	Plastics in food packaging
Food and beverage packaging	Paper and paperboard packaging
Advances in controlling volatile flavors and aromas	Active packaging
Flavor and odor absorbers	Modified atmosphere packaging
High chemical barrier material innovations	Nano-packaging
Factors affecting food packaging interactions and barrier properties	New packaging materials and material development
Sustainable food packaging	Modified atmosphere, active and intelligent packaging
Nanocomposites and other emerging nanotechnologies in food packaging	Aseptic packaging
Food biodeterioration and methods of preservation	Bio based and edible packaging, bioplastics
Packaged product quality and shelf life	Food package testing
Logistical packaging for food marketing systems	Food package interactions: migration measurement methods, models and food safety risk assessment
Metal cans	Sustainable food contact materials
