

CALL FOR PAPERS

ICAQEH 2023
Apr 22-23, 2023
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAQEH 2023 : International Conference on Air Quality and Environmental Health is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Air Quality and Environmental Health. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Air quality management
Ecosystems, atmosphere,
environment, human and earth
systems
Dynamic processes in the
land-atmosphere-society continuum
High latitudes and developing
countries
Multidisciplinary observations and
modelling of
land-atmosphere-society
interactions
Land, ecosystem and atmosphere in
the human-earth system
Sustainable management of
human-dominated environments
Adaptation and mitigation
strategies
Agro-ecosystem sustainability
Air pollution and climate change
Arctic sea ice melting
Biodiversity and climate change
Clean and smart energy

Climate change economics
Climate change solutions
Climate dynamics
Climate modeling and prediction
Indoor/outdoor air quality and
monitoring,
Modelling and air quality
management,
Air pollution and climate change,
Pollution prevention and control
technologies,
Indoor air quality,
Impacts of air pollution,
Air sampling technologies.
Environmental monitoring of air
quality
Urban air pollution
