

# CALL FOR PAPERS

**ICTAGMO 2023**  
**Apr 22-23, 2023**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTAGMO 2023 : International Conference on Transgenic Animals and Genetically Modified Organisms is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Transgenic Animals and Genetically Modified Organisms. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transgenic animals  
Genetically modified organism  
Transgenic animals in  
biotechnology  
Recombinant DNA technology  
Recombinant organisms  
Transgenic animals in agriculture  
Gene transfer technology  
Animal nutrition  
Animal genetics and breeding  
Animal reproduction

Applications of animal  
biotechnology  
Cloned and transgenic animals and  
their regulation  
Animal growth and development  
Animal products and food safety  
Animal health, welfare and the  
environment  
Applied animal welfare science  
Animal behavior  
Animal testing  
Animal diseases
