

CALL FOR PAPERS

ICCPI 2023
May 13-14, 2023
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPI 2023 : International Conference on Chemical Properties of Iron is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Properties of Iron. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Iron chemistry
The chemistry and structure of iron
Chemical properties of iron
Industrial chemistry of iron and its compounds
Inorganic chemistry of iron
Organo-iron compounds

Spectroscopic methods in iron chemistry
Health and environmental effects of iron
Models for iron biomolecules
Chemistry of iron in marine aerosols
The cloudwater chemistry of iron
Chemistry of iron sulfides in sedimentary environments
