

# CALL FOR PAPERS

**ICWSC 2023**  
**May 24-25, 2023**  
**Montreal, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSC 2023 : International Conference on Wildlife Sciences and Conservation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Sciences and Conservation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife management  
History  
Game laws  
Emergence of wildlife conservation  
Types of wildlife management  
Opposition
