

CALL FOR PAPERS

ICESRA 2023
May 03-04, 2023
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESRA 2023 : International Conference on Environmental Safety and Risk Assessment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Safety and Risk Assessment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental safety
Environment, safety and health
Health, safety and environmental policy
Environment management systems
Environmental risk evaluation and management
Environmental monitoring
Ecological and environmental safety
