

# CALL FOR PAPERS

**ICAMBDOCS 2023**  
**May 17-18, 2023**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMBDOCS 2023 : International Conference on Advanced Micro-Bioreactor Design for Organ Cell Studies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Micro-Bioreactor Design for Organ Cell Studies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Human organ cells in 3D scaffolds  
that mimic cell-cell interactions  
in vivo tissues  
Co-cultures of combinations organ  
cell types  
Online sensor methods for in situ  
monitoring inside the reactor

In situ imaging of organ cell  
biomarkers  
Animal and human models of heart,  
liver or brain mimicked in  
micro-bioreactors  
New devices for parallel or  
scaled-out operation
