

# CALL FOR PAPERS

**ICVOCEHH 2023**  
**May 17-18, 2023**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVOCEHH 2023 : International Conference on Volatile Organic Compounds, Environment and Human Health is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Volatile Organic Compounds, Environment and Human Health. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Volatile organic compounds  
Static and mobile sources of  
volatile organic compounds  
Environmental effects of volatile  
organic compounds  
Volatile organic compounds and  
human health

Monitoring and measurement  
techniques for volatile organic  
compounds  
Accuracy and traceability in  
volatile organic compounds  
measurements  
Treatment techniques for volatile  
organic compounds
