

CALL FOR PAPERS

ICBCWM 2023
May 27-28, 2023
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCWM 2023 : International Conference on Bluetooth Communication and Wireless Networks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bluetooth Communication and Wireless Networks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless Communication Systems and Options

Bluetooth Communication

Bluetooth Based Smart Sensor Networks

Optimizations in Wireless Networks

Network Architectures and Mobile Protocols

Wireless Internet and Multimedia

4G, 5G and Beyond Wireless Networks and Systems

Security, Privacy and Hiding in the Cloud

Wireless Power Transfer

Wireless Audio Communication System

Wireless Telecommunications Management

Optical Satellite Communication

Efficient Wireless Communication Network Design

Mesh Topology

Wireless Networked Digital Devices

Routing, Scheduling and Resource Allocation

Organizational Communication

New Ways to Communicate

Remote Access Service

Communication Security

Wireless Security Systems

Information and Knowledge

Management

Securing Underwater Wireless

Communication Networks

Wireless Power Transfer

Laser Communications
