

CALL FOR PAPERS

ICTVG 2023
May 20-21, 2023
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTVG 2023 : International Conference on Trends in Veterinary Genetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Trends in Veterinary Genetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Veterinary genetics
Veterinary genetic testing
Animal genetic resources
Animal breeding and genetics
Molecular and quantitative animal genetics
Trends and advances in veterinary genetics
Genetics in domestic animal reproduction
Molecular biology and veterinary genetics
Molecular biology and genetics for veterinary diagnosis
Genetic engineering applications in animal breeding

Single-gene disorders
Chromosomal aberrations
Single genes in populations
Familial disorders not due to a single gene
Immunogenetics and pharmacogenetics
Hosts, parasites and pathogens
Single genes in animal breeding
Genetic and environmental control of inherited disorders
Relationship and inbreeding
