

# CALL FOR PAPERS

**ICAFT 2023**  
**Jun 10-11, 2023**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFT 2023 : International Conference on Aviation Flight Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aviation Flight Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Flight technology  
Aviation flight technology  
Flight vehicle aerodynamics  
Flight vehicle classification  
Airship (aerostatic craft)  
Airplane (aerodynamic craft)  
Fixed wing airplane  
Rotary wing airplane  
Mixed fixed-rotary airplane  
Surface-effect craft  
Rocket  
Manned aerial vehicle  
Unmanned aerial vehicle

Flight dynamics and control  
Engineering analysis of flight vehicles  
Flight vehicles  
Flight vehicle performance  
Flight software  
Aerodynamic control  
Flight test  
Aircraft structures  
Electrotechnology  
Outer space  
Rocket science  
Atmospheric pressure and temperature  
Aerodynamics
