

# CALL FOR PAPERS

**ICTCD 2023**  
**Jun 24-25, 2023**  
**Oslo, Norway**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTCD 2023 : International Conference on Textile Chemistry and Dyeing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Textile Chemistry and Dyeing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Textile dyeing	Special solution containing dyes
Textile dyeing process	Particular chemical material
Textile manufacturing	Dye molecules
Dyeing techniques	Temperature and time controlling
Process of adding color to textile products	Different classes of dyes
Textile chemistry	Natural and man-made
Etymology	Animals or plants
History	Artificial dyes
Methods	Disperse dyes
Direct application	Broader range of colors
Yarn dyeing	Different types of fiber
History of garment dyeing	Different stages of the textile production process
Complex garment dyeing
