

CALL FOR PAPERS

ICBWTB 2023
Jun 21-22, 2023
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBWTB 2023 : International Conference on Biological Wastewater Treatment and Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biological Wastewater Treatment and Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biological wastewater treatment
Wastewater treatment processes
Biological treatment for industrial wastewater
Biotechnology for wastewater treatment
Biotechnology for industrial and municipal wastewater
Biological degradation of hazardous wastewater
Bioreclamation of contaminated groundwater

Biogranulation technologies for wastewater treatment
Wastewater treatment systems
Phase separation
Sedimentation, filtration and oxidation
Wastewater treatment technologies
Water purification technologies
Ground water pollution control
