

CALL FOR PAPERS

ICMSSLA 2023
Jun 21-22, 2023
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSSLA 2023 : International Conference on Masonry Structures, Structural Limitations and Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Masonry Structures, Structural Limitations and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Masonry construction
Applications
Advantages
Disadvantages
Structural limitations
