

CALL FOR PAPERS

ICMVST 2023
Jul 26-27, 2023
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMVST 2023 : International Conference on Mechatronic Vehicles and Software Tools is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechatronic Vehicles and Software Tools. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechatronic vehicles
Mechatronic vehicle modeling
Design methodology for mechatronic vehicles
Mechatronic system design
Simulation of mechatronic vehicles
Dynamic simulation of mechatronic systems

Active and adaptive suspension systems
Mechatronic vehicle suspension systems
Software tools for mechatronic vehicles
Vehicle stability
Power management
