

CALL FOR PAPERS

ICGCEC 2023
Jul 29-30, 2023
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGCEC 2023 : International Conference on Geosynthetics in Civil Engineering Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geosynthetics in Civil Engineering Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural Applications
Aquaculture
Civil Engineering Areas
(geotechnical, geoenvironmental,
environmental, transportation, and
hydraulic engineering)
Coastal Protection
Direct and Life-Cycle Cost Savings
Drainage and Filtration
Durability
Embankments on Soft Soils
Environmental Benefits
Geosynthetics as Formwork
Geotextiles and Geomembranes
Hydraulic Applications
Innovations and New Developments

Landfills
Lightweight Construction
Mining engineering
Monitoring
Pavements
Physical and Numerical Models
Polymeric and Clay Geosynthetic
Barriers
Properties and Testing
Quality Control and Quality
Assurance
Reinforced Walls and Slopes
Roads, Railroads and Other
Transportation Applications
Seismic Applications
Sustainability
