

CALL FOR PAPERS

ICWTTS 2023
Jul 29-30, 2023
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWTTS 2023 : International Conference on Waste Treatment Technologies and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Waste Treatment Technologies and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Waste treatment technologies
Solid waste treatment technologies
Wastewater treatment technologies
Industrial waste treatment technologies
Organic waste treatment technologies
Radioactive waste treatment technologies
Medical waste treatment technologies
Alternative and sustainable waste treatment technologies
Industrial biological wastewater treatment technologies
Commercially applied recovery technologies
Novel recovery/recycling technologies
Conventional biological treatment methods
Biotechnological applications in waste management

Thermal treatment technologies for waste reduction
Ecology and biodiversity conservation
Environmental pollution and management
Renewable energy sources
Energy policy, planning and management
Climate change and global warming
Environmental hydraulics
Sustainable development
Remote sensing and environment
Environmental ergonomics
Computational techniques
Air pollution from mobile and stationary sources
Noise and acoustics
