

# CALL FOR PAPERS

**ICMVST 2023**  
**Jul 26-27, 2023**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMVST 2023 : International Conference on Mechatronic Vehicles and Software Tools is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechatronic Vehicles and Software Tools. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechatronic vehicles  
Mechatronic vehicle modeling  
Design methodology for mechatronic vehicles  
Mechatronic system design  
Simulation of mechatronic vehicles  
Dynamic simulation of mechatronic systems

Active and adaptive suspension systems  
Mechatronic vehicle suspension systems  
Software tools for mechatronic vehicles  
Vehicle stability  
Power management
