

CALL FOR PAPERS

ICEDE 2023
Jul 19-20, 2023
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEDE 2023 : International Conference on Electronics and Digital Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronics and Digital Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronics
Electric energy
Digital electronics design
Digital engine electronics
Digital motor electronics
Digital signals
Manufacturing tolerance, signal
attenuation or parasitic noise
Properties
Construction
Design
Structure of digital systems
Representation
Combinational vs. Sequential

Synchronous systems
Asynchronous systems
Register transfer systems
Computer design
Computer architecture
Design issues in digital circuits
Automated design tools
Design for testability
Trade-offs
Reliability
Fanout
Speed
Logic families
