

CALL FOR PAPERS

ICCTR 2023
Jul 08-09, 2023
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTR 2023 : International Conference on Current Trends in Radiology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Current Trends in Radiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The growth of radiology	Advances in abdominal imaging
Current trends in radiology	Computed Tomography Angiography
Cost and value in radiology	Oncology treatment
The market of radiology	Prostate cancer treatment
Radiology industry trends	Lung cancer treatment
Role of Annexin A5 Imaging in cancer treatment	Advances in MRI techniques and applications
Detection of breast cancer by mammography screening	Digital mammography for breast cancer
PET/CT scans for cancer	Advances in diagnostic interventional pulmonology.
Multiparametric magnetic resonance imaging (MP-MRI) in management of prostate cancer	Advances in Mammographic Imaging
Cancer prognosis	Advances in retinal ganglion cell imaging
Role of CT, MRI, US and PET in liver cancer imaging	Retinal OCT Imaging
Medical imaging reduces surgery
