

CALL FOR PAPERS

ICECSCAD 2023
Jul 08-09, 2023
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECSCAD 2023 : International Conference on Electronic Circuit Simulation and Computer-Aided Design is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronic Circuit Simulation and Computer-Aided Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronic circuit simulation and layout software

Electronic circuit modeling and simulation

Computer-based analog circuit simulators

Computer-based circuit layout editor

Electronics and circuit analysis using MATLAB

Analysis and synthesis of electronic circuits

Circuit simulators

Transistor simulation

Behavioral simulation

Hardware emulation

Simulation of analog and digital circuits

Integrated circuits

Network simulation software

Simulation software
