

CALL FOR PAPERS

ICAWPTA 2023
Jul 22-23, 2023
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAWPTA 2023 : International Conference on Advances in Written Pole Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Written Pole Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Written pole technology
Recent advances in written pole technology
Written pole electric motors
Testing and modeling of written pole electric motors

Design and development of written pole electric motors
Simulation and analysis written pole electric motors
Modern use of written pole electric motors
