

# CALL FOR PAPERS

**ICDIPEWCT 2023**  
**Jul 19-20, 2023**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDIPEWCT 2023 : International Conference on Digital Information Processing, Electronics and Wireless Communication Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Information Processing, Electronics and Wireless Communication Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital Information Processing  
Information and data management  
Watermarking and Data Compression  
E-Technology  
E-Government  
E-Learning  
Signal Processing, Pattern  
Recognition and Applications  
Forensics, Recognition Technologies  
and Applications  
Data Mining  
Computational Intelligence  
Biometrics Technologies  
Bioinformatics and Biomedical  
Imaging  
Brain-Computer Interfacing and  
Human-Computer Interfacing

User Interfaces, Visualization and  
Modeling  
Speech Recognition, Analysis and  
Synthesis  
Cloud Computing Security  
Internet Modeling  
Natural Language Processing  
Information Ethics  
Information Content Security  
Cryptography and Data Protection  
Web Services Architecture, Modeling  
and Design  
Semantic Web, Ontologies  
Image Processing  
Expert Systems
