

CALL FOR PAPERS

ICAMEA 2023
Jul 29-30, 2023
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMEA 2023 : International Conference on Aerospace Manufacturing and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace Manufacturing and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing of aerospace components
Manufacturing technology for aerospace structural materials
Aerospace and defense manufacturing
Aerospace and defense policies and law
Aerospace component design
Research for aerodynamics, engine and communication system
Testing infrastructure and services
Aluminium; magnesium and beryllium

Titanium
High strength steels
Superalloys
Polymer matrix composites
Adhesive bonding and integrally cocured structure
Metal matrix composites
Ceramic matrix composites
Structural assembly
