

CALL FOR PAPERS

ICSBDC 2023
Aug 12-13, 2023
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSBDC 2023 : International Conference on Sustainable Buildings Design and Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Buildings Design and Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable building
Sustainable energy use
Managing sustainable building projects
Life cycle of buildings
Sustainable building systems
Sustainable buildings design
Urban sustainability
Qualities and uses
Social concerns
Virtual design and construction methods
Lifecycle assessment methods
Infrastructure
Organization and process modeling

Heating, ventilation and cooling system efficiency
Renewable energy generation
Solar panels
Wind turbines
Solar water heating
Heat pumps
Sustainable building materials
Recycled materials
Lower volatile organic compounds
Materials sustainability standards
Waste management
Building placement
Sustainable building consulting
