

CALL FOR PAPERS

ICWHP 2023
Aug 16-17, 2023
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWHP 2023 : International Conference on Wildlife and Human Perceptions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife and Human Perceptions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Human and wildlife interactions
Natural and human impacts on wildlife
Animals, habitats, and human interactions
Wildlife conservation
Wildlife populations and habitats
Human perceptions
Management approaches to human and wildlife interactions
Harassment of wildlife
Risk perception and public involvement
Risk management

Effects on wildlife harassment
Current issues in wildlife management and conservation
Natural extinction
Multiple factors
Unfair competition
Wildlife-rich areas
Creative solutions to wildlife/people conflicts
Pollution and habitat destruction
Public education and conservation
