

CALL FOR PAPERS

ICAM 2023
Aug 16-17, 2023
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAM 2023 : International Conference on Aerospace Missions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace Missions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civilian Space Missions
Military Space Missions
New Aircraft applications
Governmental investment
Private investment
International MNT-development collaborations
Pilot programs for coordinated international development of aerospace MNT Systems
Multi-functional structures
Composites
Defense needs and lessons learned
Manned and Unmanned Space needs

Aeronautics applications
Commercial (non-aerospace) applications
Aerospace materials
Propulsion
Guidance, Navigation, and Control
Communications
Environmental Monitoring and Surveillance
Instrument Systems
Novel packaging techniques for MNT systems
Harsh Environment packaging and testing
Radiation tolerance
