

# CALL FOR PAPERS

**ICASTMB 2023**  
**Aug 09-10, 2023**  
**Lagos, Nigeria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASTMB 2023 : International Conference on Advanced Structural Technologies and Modern Buildings is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Structural Technologies and Modern Buildings. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced structural technologies  
for high-rise buildings  
Featured design researches  
Sustainable vertical urbanism  
Building services and achieving  
sustainable vertical urbanization  
Supertall building design  
Seismic action reduction in  
high-rise structure

Designing high-rise housing  
Thermal breaks and energy  
performance in high-rise  
structures  
Using fluid dynamics to optimize  
high-rise structure design  
New skins for skyscrapers  
Aerodynamic performance of tall  
buildings  
Development of innovative  
structures
