

CALL FOR PAPERS

ICAEVP 2023
Aug 05-06, 2023
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEVP 2023 : International Conference on Advances in Electric Vehicle Propulsion is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Electric Vehicle Propulsion. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electric vehicle propulsion technologies and applications
Propulsion technologies for electrically propelled vehicles
Propulsion technologies for hybrid electric vehicles
Battery-powered vehicles
Propulsion technologies for fuel cell vehicles

Propulsion systems and technologies
Electric machines for electric vehicles
Batteries for electric vehicles
Fuel cell systems and technologies
Power electronics for electric vehicles
