

CALL FOR PAPERS

ICAFPT 2023
Sep 20-21, 2023
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFPT 2023 : International Conference on Active Food Packaging Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Active Food Packaging Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Food packaging technology
- Innovative food packaging solutions
- Food and beverage packaging
- Advances in controlling volatile flavors and aromas
- Flavor and odor absorbers
- High chemical barrier material innovations
- Factors affecting food packaging interactions and barrier properties
- Sustainable food packaging
- Nanocomposites and other emerging nanotechnologies in food packaging
- Food biodeterioration and methods of preservation
- Packaged product quality and shelf life
- Logistical packaging for food marketing systems
- Metal cans
- Packaging of food in glass containers
- Plastics in food packaging
- Paper and paperboard packaging
- Active packaging
- Modified atmosphere packaging
- Nano-packaging
- New packaging materials and material development
- Modified atmosphere, active and intelligent packaging
- Aseptic packaging
- Bio based and edible packaging, bioplastics
- Food package testing
- Food package interactions: migration measurement methods, models and food safety risk assessment
- Sustainable food contact materials
