

CALL FOR PAPERS

ICSRC 2023
Sep 06-07, 2023
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSRC 2023 : International Conference on Social Robotics and Communication is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Social Robotics and Communication. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Social robotics
Robotics and human environment
Interaction and collaboration among robots, humans, and environments
Robots to assist the elderly and persons with disabilities
Socially assistive robots to improve quality of life
Affective and cognitive sciences for socially interactive robots
Personal robots for the home
Social acceptance and impact in the society

Robot ethics in human society
Context awareness, expectation, and intention understanding
Control architectures for social robotics
Socially appealing design methodologies
Safety in robots working in human spaces
Human augmentation, rehabilitation, and medical robots
Robot applications in education, entertainment, and gaming
