

CALL FOR PAPERS

ICADP 2023
Sep 16-17, 2023
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADP 2023 : International Conference on Antimycobacterial Drugs and Pharmacokinetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Antimycobacterial Drugs and Pharmacokinetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Antimycobacterial drugs
Structure and mechanism of action
Pharmacokinetics of antimycobacterial drugs
Antimicrobial activity and resistance
Disposition, metabolism, and excretion
Adverse effects of antimycobacterial drugs
Drug interactions

Mycobacterial infections and mycobacterium tuberculosis
Tuberculosis treatments
Leprostatic agents
Drug resistance
Therapeutic drug monitoring of the antimycobacterial drugs
Serum concentrations of the antimycobacterial drugs
Shortages of antimycobacterial drugs
