

CALL FOR PAPERS

ICUAEES 2023
Oct 18-19, 2023
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUAEES 2023 : International Conference on Urban Acoustic Environments and Environmental Sounds is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Acoustic Environments and Environmental Sounds. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The urban implications of environmental sounds
The relationships between landscapes and soundscapes
The associations between land use and the spatial distribution of sound sources
The effects of urban morphology on sound propagation in urban contexts

New sound mapping techniques
The use of virtual reality in urban sound planning
Studies on any other methodological strategies to characterize urban acoustic environments
Both quantitatively and qualitatively
