

# CALL FOR PAPERS

**ICCCMDS 2023**  
**Oct 21-22, 2023**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCMDS 2023 : International Conference on Cascade Control Modeling, Design and Simulation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cascade Control Modeling, Design and Simulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cascade control  
Cascade control systems  
Cascade control applications  
Cascade control block diagram  
Fundamentals of cascade control  
Designing cascade control systems

Cascade control architecture  
The inner secondary loop  
The nested cascade architecture  
Cascade structures and controller designs  
Saturation compensation  
IMC/PID cascade
