

CALL FOR PAPERS

ICNIT 2023
Oct 21-22, 2023
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNIT 2023 : International Conference on Nanofabrics and Innovative Textiles is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanofabrics and Innovative Textiles. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanofabrics
Nanotechnology textiles
Nanoscopic fibers
Nanofibers
Carbon nanofiber
Nanofiber seeding
Synthesis
Potential applications
Self-twisting
Sol-gel
Electrospinning
Applications
Textile manufacturing

Drug delivery
Tissue engineering
Environmental implications
Manufacturing processes of fibres
and textile surface patterns for
nano textiles
Bioengineering, molecular
chemistry, physics, electrical
engineering, computer science and
systems engineering
Health impact
Effects of nano-silver in textiles
on skin flora
Wearable technology
Innovative fashion
Innovative textiles
Innovative fashion design
Smart clothing
Electronic textiles
