

CALL FOR PAPERS

ICWISDDIA 2023
Oct 04-05, 2023
Dubrovnik, Croatia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWISDDIA 2023 : International Conference on Web Information Systems Design and Data-Intensive Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Information Systems Design and Data-Intensive Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Web information system
Web information mining
Web information mining algorithm
Web information systems analysis
and design
Web information systems development
and implementation
The co-design approach
Data-intensive web information
systems
Content-intensive applications

View integration and cooperation in
databases, data warehouses and web
information systems
User preferences, obligations and
rights
Strategic modeling of web
information systems
Conceptual modelling of web
information systems
Privacy enhanced information
systems
Web information systems with
navigational patterns
Data quality in web information
systems
