

# CALL FOR PAPERS

**ICEMI 2023**  
**Nov 04-05, 2023**  
**Cape Town, South Africa**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMI 2023 : International Conference on Electronics Measurements and Instrumentation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronics Measurements and Instrumentation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Measurement, Instruments and Test  
Virtual Instrument  
Scientific Experiment and Analytic  
Instrument  
Educational Instrument and  
Experimental System  
Microprocessor and Embedded System  
VLSI Testing and Fault Diagnosis  
MEMS Instruments and Test System  
Testability and Built-in-test  
Electronic Instrument and  
Measurement System  
Optical Instrument and Measurement  
System  
Precision Instruments and  
Measurement System  
Instrument and Measurement in  
Research and Engineering  
Simulation and Experimental  
Technology

Physical, Chemical and Biological  
Field  
Material and Electro-mechanical  
Engineering  
Energy and Power Engineering  
Communication Technology  
Aerospace, Avionics and Navigation  
Automobile Engineering  
Environmental Engineering  
Biomedical Instrument and  
Application  
Safety Monitoring Instruments and  
Systems  
Measurement and Test Information  
Processing  
Measurement System and Theory  
Measurement Error Theory
