

CALL FOR PAPERS

ICERR 2023
Nov 04-05, 2023
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICERR 2023 : International Conference on Ecosystem Rehabilitation and Restoration is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecosystem Rehabilitation and Restoration. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecosystem rehabilitation
Restoration and rehabilitation of degraded ecosystems
Aquatic ecosystem restoration
Innovative methods of marine ecosystem restoration
Sustainability in ecosystem restoration
Ecosystem rehabilitation and forest regeneration

Conservation biology and restoration ecology
Soil development and soil heterogeneity
Species interactions
Successional patterns
Theory of rehabilitation and its applications
Invasion, competitive dominance and resource use
