

CALL FOR PAPERS

ICAPE 2023
Nov 01-02, 2023
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPE 2023 : International Conference on Advanced Pavement Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Pavement Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pavement engineering
Infrastructure and pavement
engineering
Design and maintain flexible and
rigid pavements
Materials technology
Soils, hydraulics, and material
properties
Rehabilitation and maintenance of
pavements
Testing techniques
Manufacturing processes
Construction techniques

Waste materials
Government policy
Utilization
Asphalt and concrete pavement
technology
Composite pavement technology
Highway pavements, design and
maintenance
Road base materials
Highways and road bridges
