

CALL FOR PAPERS

ICEACA 2023
Nov 11-12, 2023
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEACA 2023 : International Conference on Ecological Anthropology and Cultural Adaptations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecological Anthropology and Cultural Adaptations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecological anthropology	Ecology of health
Environmental anthropology	Wellness and nutrition
Methodology	Environmental change
Environmentalism and cultural theory	Resources management
Human-environment interactions	Multi-species relations
Local societies and their environments	Anthropology of food and agriculture
Anthropological approaches	Nature and society
Humans, sociocultural and biophysical environments	Political ecology
Evolution of human ecosystems	Socio-ecological systems
Primate socioecology	Paleoecology
Cultural adaptations to environments	Information ecology
Historical ecology	Globalization effects on the discipline
Anthropology of development and conservation	Criticisms of ecological anthropology
