

# CALL FOR PAPERS

**ICLMCMTK 2023**  
**Dec 16-17, 2023**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLMCMTK 2023 : International Conference on Ladle Metallurgy, Convective Mass Transfer and Kinetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ladle Metallurgy, Convective Mass Transfer and Kinetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ladle metallurgy  
Casting ladle  
Transfer ladle  
Treatment ladle  
Injection technology  
Thermodynamics  
Fluid flow and mixing in ladle metallurgy systems  
Convective mass transfer and kinetics

Model experiments on mass transfer in ladle metallurgy  
Injection practice in secondary metallurgy of steel  
Powder injection  
Testing techniques  
Testing technique for powder injection  
Online analysis of stirring processes in ladle metallurgy  
Integrated ladle metallurgy control  
Economic considerations
