

# CALL FOR PAPERS

**ICETICIIT 2023**  
**Dec 13-14, 2023**  
**Cairo, Egypt**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETICIIT 2023 : International Conference on Emerging Trends in Industrial Communication and Industrial Internet of Thing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Emerging Trends in Industrial Communication and Industrial Internet of Thing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial internet of thing  
Cyber physical systems  
Distributed measurement systems  
Time synchronization mechanisms  
Real-time indoor localization systems  
Performance evaluation and modelling of communication systems and architectures

Software-defined networking (SDN)  
Cloud and fog computing in future factories  
Real-time communication standards  
Deterministic medium access schemes and real-time scheduling  
In-vehicle real-time communications  
Cooperating robot sensor networks
