

# CALL FOR PAPERS

**ICEERE 2023**  
**Dec 02-03, 2023**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEERE 2023 : International Conference on Electronic Engineering and Renewable Energy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronic Engineering and Renewable Energy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Communications and networking  
Image, video, and signal  
processing  
Computer systems and application  
Informatics  
Information technology  
Bioengineering  
Nanotechnology  
Circuits and systems  
Embedded and intelligent systems  
Materials for energy  
Power electronics, systems and  
applications  
Command and control systems for  
renewable energy

Energy efficiency  
Green energy technology  
Photovoltaic and solar energy  
Wind energy  
Thermal energy and heat transfer  
Hybrid renewable energy  
Fuel cell, biogas, biomass  
Energy storage and management  
Smart grids and power plant  
Smart cities and homes  
Water and environmental
