

# CALL FOR PAPERS

**ICBID 2023**  
**Dec 16-17, 2023**  
**Barcelona, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBID 2023 : International Conference on Biodiversity Informatics and Databases is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biodiversity Informatics and Databases. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biodiversity informatics  
Modeling of species distributions  
Ocean biodiversity informatics  
Biodiversity informatics for sustainable development  
Agricultural and environmental informatics

Biodiversity assessment  
Niches, models and climate change  
Data capture and storage  
Data sharing and integration  
Data analysis
