

CALL FOR PAPERS

ICEOST 2023
Dec 30-31, 2023
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEOST 2023 : International Conference on Electro-Optic Systems and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electro-Optic Systems and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Electro-optics
- Electro-optical engineering
- Electro-optical systems
- Optical calculations
- Sources and illuminators
- Lenses, prisms, and mirrors
- Coatings, filters, and surface finishes
- Polarization
- Exotic optical components
- Fiber optics

- Optical systems
- Optical measurements
- Designing electro-optical systems
- Building optical systems
- Signal processing
- Electronic building blocks
- Electronic subsystem design
- Electronic construction techniques
- Digital postprocessing
