

CALL FOR PAPERS

ICTPDMT 2023
Dec 30-31, 2023
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTPDMT 2023 : International Conference on Tidal Power Development and Modern Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Tidal Power Development and Modern Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|-------------------------------|--|
| Tidal power | Ocean power technologies |
| Tidal energy | US and Canadian studies in the twentieth century |
| Dynamic tidal power | Tidal power development in the UK |
| Tidal power plants | Current and future tidal power schemes |
| Tidal power generation | Tidal power issues |
| Tidal power utilising system | Environmental concerns |
| Tidal power generation system | Renewable energy |
| Generation of tidal energy | Electricity generation |
| Generating methods | Tidal turbines |
| Tidal stream generator | Tidal barrage |
| Tidal barrage | Tidal lagoon |
| Tidal lagoon | Corrosion |
| Modern technology | Fouling |
