

CALL FOR PAPERS

ICAWT 2023
Dec 13-14, 2023
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAWT 2023 : International Conference on Advanced Wireless Telecommunications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Wireless Telecommunications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless Telecommunications
Wireless Internet and Multimedia
Satellite Based Systems
Global Wireless Services, Business
and Applications
Mobile Operating Systems and
Architectures
Mobile and Wireless Network
Security and Privacy
Wireless Modeling, Algorithms and
Simulation
QoS and Wireless Network
Reliability
Mobile and Cloud Computing
Wireless and Healthcare
Spread-Spectrum/CDMA/OFDM
Technologies
RFID Systems and Applications
IoT Device Connection Efficiency

IoT Security
Mobile IP and Cloud Security
Wireless Communications Investments
and Ventures
WLANs, WPANs, and Femtocells
4G, 5G and Beyond Wireless Networks
and Systems
Wireless and New Generation Media
Ad Hoc and Sensor Networks
Spectrum Management and Policy
Wireless M2M and Home Networks
Wireless Telecommunications
Management
GPS and Indoor Geolocation Systems
Mobile Cellular TV
Big Data Analytics in
Telecommunications
